NEXT-GENERATION ERP

Scaling Wholesale Operations with **SAP Cloud ERP, BTP and AI-Driven Insights**

The wholesale distribution industry is evolving at unprecedented speed. To stay ahead, your business must adapt faster and smarter. SilverHub Wholesale, powered by SAP Cloud ERP and enhanced Business AI, delivers the agility and intelligence wholesale leaders need to thrive.

With accelerated deployment, pre-configured industry best practices, and embedded AI tools, SilverHub Wholesale helps businesses transform their operations, optimize supply chains, and unlock new revenue opportunities.

KEY BENEFITS

Unlock scalability
with cloud ready
infrastructure

Leverage cutting-edge
AI capabilities for predictive
insights and smarter
decision-making

Drive sustainable growth
through innovation and
compliance

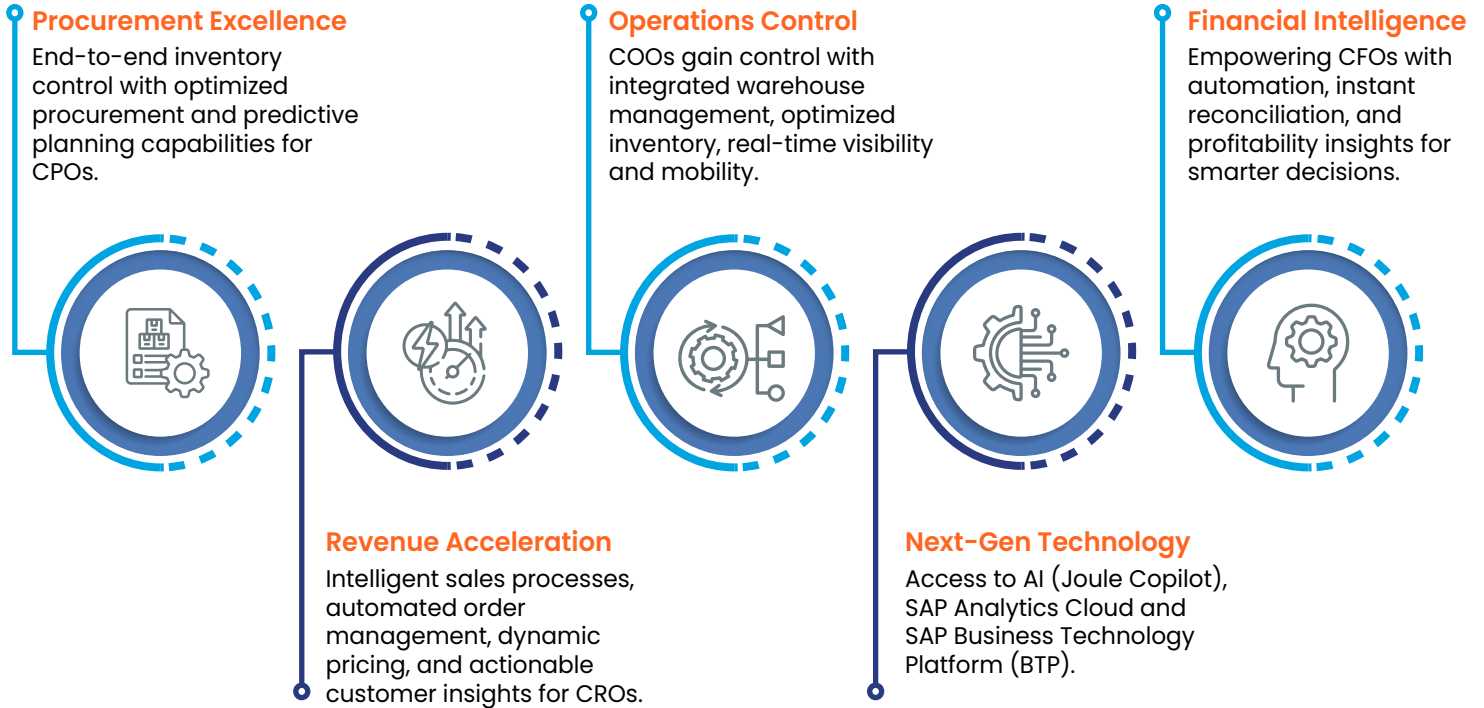

Streamline operations
across supply chain, finance,
inventory, and distribution

SilverHub Wholesale Features

Delivering comprehensive capabilities across every business function with AI-powered intelligence built in.

Transform Your Wholesale Distribution Business in Weeks, Not Years

Wholesale distribution is getting harder. Your customers expect Amazon-like convenience while margins keep shrinking. Stockouts cost significant sales, and legacy systems can't keep pace with omnichannel demands. You need modern capabilities—but not another 18-month implementation nightmare.

FAST IMPLEMENTATION

From Discovery to Go-Live in Weeks

Traditional ERP implementations drag on for years with endless requirements gathering and custom programming. Our Digital Discovery process is fundamentally different.

✓ Digital Discovery

Match your business needs against pre-configured capabilities designed for wholesale distribution. No starting from scratch.

✓ Fit-to-Standard Workshops

See exactly how the solution handles sales, procurement, warehousing, and finance—working on Day One, not months later.

✓ Automated Configuration

Scope IDs activate automatically, configuring your system with proven process flows, test scripts, and training materials included.

✓ Rapid Go-Live

Implementations complete in weeks instead of months or years. Time to value measured in weeks, not years.

FOUNDATION PACKAGE

Foundation

Complete wholesale distribution capabilities to digitize your core operations and build a solid foundation for growth.

Finance & Accounting	Sales Management	Supply Chain Management	Procurement
<ul style="list-style-type: none"> • Core Accounting: G/L, Assets, Inventory, Accounting & Financial Close • Financial Operations • Cost Mgmt. and Profitability Analysis • Enterprise Risk and Compliance • Receivable management • Fiori Dashboard and Reporting 	<ul style="list-style-type: none"> • Order-to-Cash • Order and Contract Management • Solution Business Management • Pricing: Rebate, Discounts, Pricing Control, Credit memos • Customer Returns • Fiori Dashboard & Reporting 	<ul style="list-style-type: none"> • Planning MRP • Inventory • Warehousing • Deliver and Transportation • Order Promising • Logistics material identification • Fiori Dashboard & Reporting 	<ul style="list-style-type: none"> • Operational Procurement • Sourcing and Contract • Supplier management • Procurement Analytics • Invoice Management • Fiori Dashboard & Reporting
